SCOPIA Mobile
Conference With Your Mobile Device

Available

iPhone   iPad
Easily Participate with Audio
Easily connect to a conference and participate by audio with the Apple iPhone or be called back on an alternate number. Simple dialing instructions are also displayed.
Receive Advanced Data Collaboration
View presentations, spreadsheets, documents and images shared in a video conference with H.239 interoperable data collaboration. Participants can immediately review previously shared materials and catch up if they arrived late to a meeting or spend additional time on critical points in material presented.

Moderate Your Meeting
Easily moderate participants of your meeting and mute noisy participants, stop the camera of a remote attendee or simply disconnect unwanted participants. Change the video layout for any video conferencing system and even rearrange the participants in the layout.

Invite Any Participant to a Meeting
Simply access your company directory to invite any attendee. You can also invite guest phones or video conferencing systems by their number or address.

All This for Free!
SCOPIA Mobile is easy to download and install. And it's free!
